EXPERIMENT NO.7 SINGLE INHERITANCE

Program of Single Inheritance:-

```java
class TestInheritance
{
 public static void main(String args[])
 {
  Dog d=new Dog();
  d.bark();
  d.eat();
 }
}
class Animal
{
 void eat()
 {
  System.out.println("eating...");
 }
}
class Dog extends Animal
{
 void bark()
 {
  System.out.println("barking...");
 }
}
```

OUTPUT:-

```
C:\Users\ketan\OneDrive\Desktop\java>java singleinheritance.java
barking...
eating...
```
